

Our Product Range

Livestock Feed

Our high-protein cattle feed contains essential minerals and natural feed additives.. This supports strong bones, better digestion, and higher milk and meat production. Ideal for dairy cattle, beef cattle, goats, and sheep. Also, promote healthy growth and weight gain.

Poultry Nutrition

Our balanced poultry feed supplements are incorporated with key nutrients. It plays an essential role in boosting egg quality, meat production, and overall bird health. These organic poultry feeds support faster growth and stronger immunity, reducing disease risks.

Pet Nutrition

We offer pet health and wellness supplements for dogs, cats, and small animals. Our formulas support bone strength, improve digestion, and boost immunity. Promising better metabolism, joint health, and overall well-being.

Aqua Feed

Our nutritional solutions for fish farming promote faster growth. They improve survival rates and strengthen immunity. These scientifically developed aqua-feed supplements promote sustainable aquaculture while maximizing production.

Livestock often suffer from poor nutrition, weak immunity, and low productivity. Farmers struggle with slow growth, disease outbreaks, and reduced yields.

Without the right nutrition, animals fail to reach their full potential. This leads to higher medical costs, lower output, and financial losses for farmers.

At VAL CASAS [P] LTD, we provide scientifically formulated, veterinary-approved feed supplements. They help improve livestock health, strengthen immunity, and increase productivity. We serve dairy farms, poultry businesses, pet owners, and aquaculture farms across India. Healthy animals mean higher yields and better profits.
